4	REFERENCE TO OTHER SECTIONS:	
-	For contact information in case of emergency, see section 1.	
	For information on safe handling, see section 7.	
	For exposure controls and personal protection measures, see section 8.	
	For waste disposal, follow the recommendations in section 13.	
CTIO	N 7: HANDLING AND STORAGE	
1	PRECAUTIONS FOR SAFE HANDLING:	
	Comply with the existing legislation on health and safety at work.	
	- General recommendations:	
	Avoid any type of leakage or escape.Keep the container tightly closed.	
	- Recommendations for the prevention of fire and explosion risks:	
	Not applicable.	
	- Recommendations for the prevention of toxicological risks:	
	Do not eat, drink or smoke while handling. After handling, wash hands with soap and water. F measures, see section 8.	-or exposure controls and personal protection
	- Recommendations for the prevention of environmental contamination:	
	It is not considered a danger to the environment. In the case of accidental spillage, follow the	e instructions indicated in section 6
2	CONDITIONS FOR SAFE STORAGE, INCLUDING ANY INCOMPATIBILITIES:	
2	Forbid the entry to unauthorized persons. Keep out of reach of children. Keep away from sou with sunlight. In order to avoid leakages, the containers, after use, should be closed carefully information, see section 10.	
	- Class of store:	
	According to current legislation.	
	- Maximum storage period:	
	24 Months.	
	- Temperature interval:	
	min:5 °C, max:40 °C (recommended).	
	- Incompatible materials:	
	Keep away from oxidizing agents, acids, alkalis.	
	- <u>Type of packaging:</u>	
	According to current legislation.	
	- Limit quantity (Seveso III): Directive 2012/18/EU:	
	Not applicable (product for non industrial use). SPECIFIC END USE(S):	
	I SREUER ENULISEISU

CMR EFFECTS:

- Carcinogenic effects:

It is not considered as a carcinogenic product.

- Genotoxicity:

It is not considered as a mutagenic product.

- Toxicity for reproduction:

Does not harm fertility.Does not harm the unborn child.

- Effects via lactation:

Not classified as a hazardous product for children breast-fed.

DELAYED AND IMMEDIATE EFFECTS AS WEL	L AS CHRONIC EFFECTS FRO	OM SHORT AND LONG-TE	RM EXPOSURE:
Routes of exposure			

Not available. - Short-term exposure: Not available. - Long-term or repeated exposure: Not available.

INTERACTIVE EFFECTS:

Not available.

		essment has not been carried out for this mixture.	
ECTION	16 : OTHER INFORMA	TION	
	TEXT OF THE PHRA	ASES AND NOTES REFERENCED IN SECTIONS 2 AND/OR 3:	
	Hazard statements according the Regulation (EU) No. 1272/2008~2022/692 (CLP), Annex III: H301 Toxic if swallowed. H302 Harmful if swallowed. H310 Fatal in contact with skin. H314 Causes severe skin burns and eye damage. H315 Causes skin irritation. H317 May cause an allergic skin reaction. H318 Causes serious eye damage. H330 Fatal if inhaled. H400 Ver toxic to aquatic life. H410 Very toxic to aquatic life with long lasting effects. EUH071 Corrosive to the respiratory tract. Notes related to the identification, classification and labelling of the substances or mixtures: Note B : Some substances (acids, bases, etc.) are placed on the market in aqueous solutions at various concentrations and, therefore, these solutions require different classification and labelling since the hazards vary at different concentrations. In Part 3 entries with Note B have a general designation of the following type: 'nitric acid %'. In this case the supplier must state the percentage concentration of the		
	solution on the label. U EVALUATION OF TH See sections 9.1, 11.1	Inless otherwise stated, it is assumed that the percentage concentration is <u>HE INFORMATION ON THE DANGER OF MIXTURES</u> : and 12.1.	
	It is recommended for provide understanding	<u>RAINING APPROPRIATE FOR WORKERS:</u> all staff that will handle this product to carry out a basic training in occupat and interpretation of Safety Data Sheets and labelling of products as well. <u>REFERENCES AND SOURCES FOR DATA:</u>
