TECHNICAL DATASHEET

IRIS LINE

Signposting of fields and sports fields

DESCRIPTION

Matt acrylic water-based paint. High coverage for signposting sport facilities.

RECOMMENDED USE

Signposting of any surface of natural or artificial grass, soil or sand fields or any other surface where it is necessary to remove the product after it has been used without leaving any trace. Special paint for indoor and outdoor signposting.

CHARACTERISTICS

- . Good resistance and duration.
- . Maximum yield.
- . It does not contain abrasive products.
- . High coverage.
- . Excellent adhesion.
- . Abrasion resistant.
- . Quick-drying.

TECHNICAL CHARACTERISTICS

Main component: Acrylic copolymers in aqueous dispersion.

Pigments: Pigments and additives.

Appearance: Matt. Diluent: Water. Solids by weight: 64 + 2%

Specific weight: $1,65 \pm 0,05 \text{ g/ml}$ Volatile organic compounds (2010): Maximum 30 g/l

Colour: White.

Drying at 20°C: 30-45 minutes. Repainting: Minimum 4-6 hours.

Theoretical yield: 12-13 L are advisable for the signposting of competition playing

fields.

Packaging: 4 L and 14 L.

IRIS LINE

Signposting of fields and sports fields

APPLICATION

Instructions:

Stir the content until it is uniform. Always apply on dry surfaces. It can be applied with brush, roller or spray gun. Dilute the product between 15-20 % with water depending on the application method or the work to be done. Only prepare the amount that is going to be necessary. Never apply under 5°C or above 35°C.

OBSERVATIONS

The characteristics of the product can be achieved once it is completely dry and hardened, as well as applied on the specified basis.

The use of the product is theoretical, and it depends on the state of the surface. The real use will be determined for each construction work and its representative tests.

The data explained here is based on our current knowledge, laboratory trials and use in a particular situation with subjective opinions.

Due to the impossibility of establishing an appropriate type and state description of each surface, it is impossible to guarantee the total reproduction for a specific use.

The manufacturer and the seller do not assume, except for specific written agreements, any responsibility coming from the use of our products, results, damage, etc., that can be presented in applications carried out according to our recommendations, since they are out of control of the company.

STABILITY AND PRESERVATION IN THE CONTAINER

Preserve in a well-closed container, under cover and in a temperature between 5-30 °C. The shelf life of the product in its original container and without opening is two years.

SAFETY AND ENVIRONMENT

Special safety measures are not required since it is a water-based product, except for the usual measures. Do not eat. Keep open containers away from children. Keep a good ventilation in case of an indoor application. For more information, see the safety datasheet of the product.

Data indicated in this technical datasheet can be modified without prior notice. REVIEW: 04/04/2024
